

Return of the Three Little Pigs

Years later the three little pigs decided to move away from the Big Bad Wolf. They moved so far away that they thought they would only need to build a straw house for all of them to live in. But the Big Bad Wolf followed them! Now they had to make their straw house very strong. Can you help them?

Each team will have 15 minutes to build a straw house that will be hard to blow over. You will only use a box of straws, scissors, and a hole punch.

When time is up, other teams will have 30 seconds to try to blow over your straw house. They may not touch the table or the house as they blow.
